

Greetings the call 9Z4GB the handle Mike.

The elliminaion by the fcc of the digital modes of operations is some what recidivistic and leans away from technological advancements and developments.

I have over 1000 contacts on digital mode and look forward to this form or communication wen the voice part of the bands are terrible. Many operators in remote areas, use these modes to communicate in adverse weather condition when voice and other modes cant go through.

It would be a travesty for HAMS if in 2008 ALE, OLIVIA, PSK etc are banned.

Please let them be.

9Z4GB

Michael.
